National Interprofessional Competency Framework

Goal: Interprofessional Collaboration:
A partnership between a team of health providers and a client in a participatory, collaborative and coordinated approach to shared decision-making around health and social issues.

Role Clarification:
Learners/practitioners seek out, integrate and value, as a partner, the input and the engagement of patient/client/family/community in designing and implementing care/services.

Dealing with Interprofessional Conflict:
Learners/practitioners actively engage self and others, including the patient/client/family, in dealing effectively with interprofessional conflict.

Team Functioning:
Learners/practitioners understand their own role and the roles of those in other professions, and use this knowledge appropriately to establish and meet patient/client/family and community goals.

Collaborative Leadership:
Learners and practitioners work together with all participants, including patients/clients/families, to formulate, implement and evaluate care/services to enhance health outcomes.
